Information Disclosure Statement

3. The information disclosure statement filed 30 September 2005 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the first and fourth NPL references are illegible due to poor copy quality. It has been placed in the application file, but not all the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance: the prior art made of record fails to show alone or in combination a hook type/shape as claimed herein further comprising a weight concentrically disposed about a straight shaft portion of the hook and symmetrically tapering toward each end thereof, with a first end of the weight being located closer to the hook eye than to the hook tip.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
